

<b>Qualification:</b>	Level 2 Apprenticeship in Engineering Maintenance – Fabrication & Welding
<b>Duration:</b>	2 years
<b>Date/s:</b>	On Demand
<b>Location:</b>	Pembrokeshire College/In the Workplace with your employer
<b>Cost:</b>	No Cost

## APPRENTICESHIP DESCRIPTION:

An Apprenticeship is a job with an accompanying skills development programme, designed by employers in the sector. It allows the apprentice to gain technical knowledge and real practical experience, along with personal skills, required for their immediate job and future career. These are acquired through a mix of learning in the workplace, formal off the job learning and the opportunity to practice and embed new skills in a real work context. This broader mix differentiates the Apprenticeship experience from training delivered to meet narrowly focused job needs.

All apprentices commencing their Apprenticeship must have an Apprenticeship Agreement between the employer and the apprentice. This can be used to reinforce the understanding of the requirements of the Apprenticeship. On completion of the Apprenticeship the apprentice must be able to undertake the full range of duties, in the range of circumstances appropriate to the job, confidently and competently to the standard set by the industry.

## WHAT DOES THE PROGRAMME COVER?

The skills and knowledge in one or more of a wide variety of engineering maintenance activities including:

-  Using and interoperating engineering data and drawings
-  Statutory regulations and safety requirements
-  Working effectively within an engineering team
-  Joining materials using a variety of welding techniques

## FRAMEWORK STRUCTURE:

- Competence based QCF Level 2 Diploma in Fabrication & Welding (completed in the workplace)
- Technical qualification – Level 2 Diploma in Engineering (by attending the college 1 day per week)
- Application of Number, Key Skill Level 1
- Communication, Key Skill Level 1
- IT, Key Skill Level 1

**ENTRY REQUIREMENTS:**

You must be aged between 16 and 24 OR in a new role within the last 12 months

It is essential that you are in employment within an engineering company.

You will need a good educational background, preferably GCSE grade C or above in science, English and maths.

Good communication skills are essential

**COURSE ASSESSMENT / EXAMINATION:**

Work-based assessments and formal exams

**PROGRESSION:**

Successful completion of this programme will allow learners to continue onto a Level 3 apprenticeship programme
