Definition of a Looked After Young People (LAYP)

‘When a local authority takes on the responsibility of a parent so children are kept safe and get what they need’.

Types of Care Orders:

- **Section 20 Voluntary Care Order**
This is where a parent or young person requests that they be placed in the care of the local authority (LA). (At any time subject to review the young person can be withdrawn from care). This can also be used for respite care or where by mutual agreement it is in the best interests of the young person. This is not a statutory order.
- **Interim Care Order**
This is granted by the court for a period of time to enable more permanent arrangements to be made. This may be a joint or single order arrangement.

- **Full Care Order**

This (may be a joint order) where the young person is placed by the court to the full care of the LA. They will make foster care arrangements or will allow them to remain at home but in this instance the LA will have joint parental rights.

- **Guardianship Order**

This is normally where the LA would be informed that a family member would be caring for a young person, and they would approve of that placement.

A looked after young person remains entitled to LAYP support services (through a personal advisor) until the age of 25 if they remain in education. However, they may live independently or be in supported accommodation. ‘When I am Ready’, depends very much on individual circumstance, need and arrangement.’
