Pembroke College

Supporting Learners with Additional Learning Needs in their Transition to College

2023 - 2024

Think **MORE**. Learn **MORE**. Be **MORE**.

Pembrokeshire College has a dedicated Learning Support Transition Team who will provide person centred support to help you move into the College environment.

One of the team:

- will attend your School Annual Review or Transition Review and provide information on the College's additional learning provision (ALP) and offer advice and guidance on College course choices;
- work with you, your school, parents, carers, and Careers Wales to ensure that we have the correct information about how best to support you during your transition and admission to College;
- offer you an individual or small group transition visit to the College;
- ask you about your wishes and dreams for your future;
- may observe you in your classroom setting in school to assess your learning support needs;
- discuss how your learning support needs will be met when you come to College;
- help you make an application to College and support you through the admissions process;
- advise you on transport available and the application process;

What we'll do continued...

- provide links to applying for financial support to help you during your course;
 - provide you with dates of the College Open Events, Transition and Link Days;
 - provide you with a named contact at College who will work with you to develop your personalised transition into College;
 - help produce or update your One Page Profile (OPP);
 - help you apply for exam access arrangements;
 - support you to access College facilities and equipment;
 - signpost you to advice on transport, health, financial support and student services;
 - provide access to a wide range of assistive and adaptive technology, e.g. reader pens, laptops, speech to text software, photosymbols;
 - support you throughout your time in College; and
 - support you with your next steps once you are ready to leave College.
- 

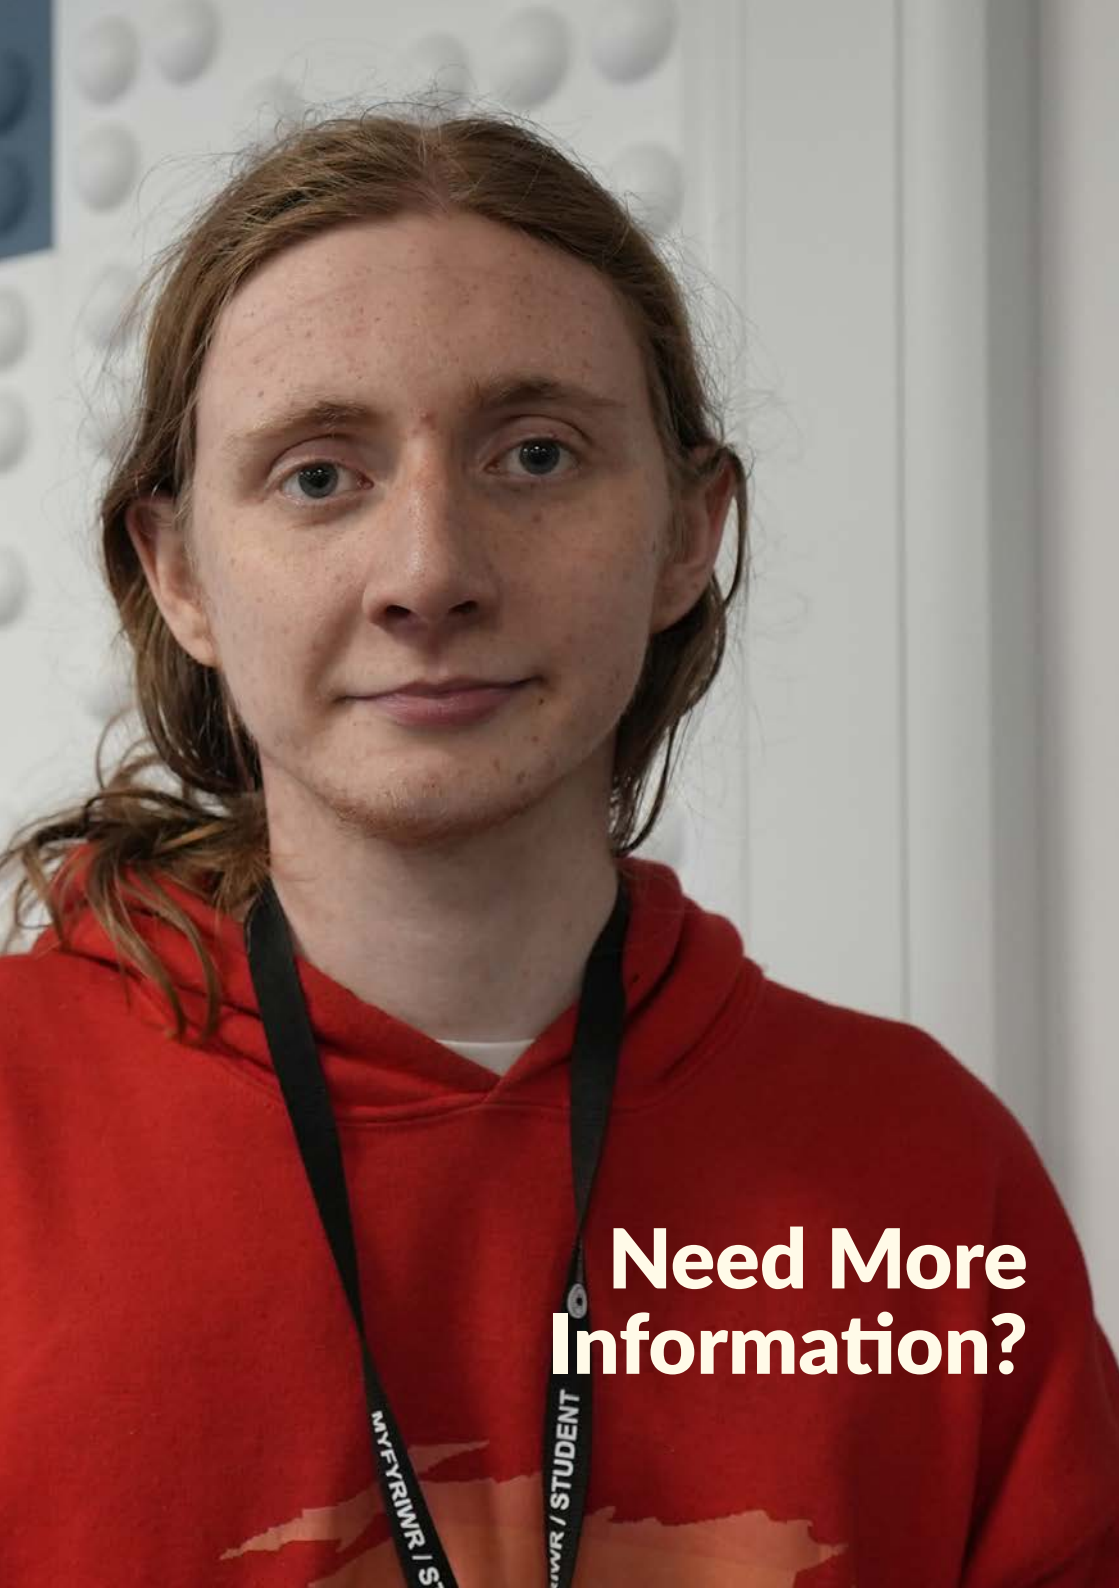

In order to do this, we will be asking you for your consent for the school to share your medical or learning support information so that we can ensure that we can fully support you during your College programme. You will be asked to complete a learning support questionnaire as part of your course application.

If you have any queries about the learning support available at College, or if you want to arrange a transition visit, please email: learningsupport@pembrokeshire.ac.uk.

For further information on our ALN Support, Universal Learning Provision and Additional Learning Provision, please visit our Additional Learning Support and Inclusion information page on the website.
